

Dear FCC:

I wish to register a complaint against Pappas Media for offering a huge amount of airtime to one of our political parties and then offering to SELL an equivalent amount to the opposing party. The airwaves are public domain and the ethics of Pappas's actions are deplorable. I do not contend that what they're doing is illegal, but it's unconscionable given the obligation of the media to provide balanced perspective. Stewardship of the airwaves is their corporate responsibility and they, by this action, have failed to be responsible citizens. If this complaint can be used to question their license renewal, please use it. Thank you.
